Profile

Born and raised in Barranquilla, Colombia, I decided to attend college in the United States with the hope of exploring my passion in the technology industry and to encounter opportunities that will help me further develop my vision of making a positive impact on the world through technological advancements. Currently, I am a proactive student actively seeking internships that will help me further pursue my passion of creating the future through technological innovation.

Projects and Experiences

Torvine Interactive
OCTOBER 2016 — MARCH 2017

Designed and developed a mobile game application that promoted hand-eye coordination in infants, used marketing and leadership to release it to an app store.

Podcast Production
JANUARY 2020 — APRIL 2020

Hosting and producing a podcast. This includes managing equipment, planning, marketing, and video and audio production to release media to multiple digital audio and video platforms.

Projects
JANUARY 2020 — JANUARY 2021

Built various projects using technologies and languages including but not limited to C++, Python, and React. Some of the projects' descriptions and GitHub links can be found in my portfolio.

Employment History

Executive Assistant, Blastingmar S.A.S., Barranquilla, Colombia
JUNE 2015 — JUNE 2018

Shadowed and assisted CEO in an industrial company in Barranquilla, Colombia. Exclusively worked here during the summers of 2015, 2016, and 2018.

Education
